1. Executive Summary

Table of Friends Coffeeshop and More is a small but popular coffee shop in the Old Castle Brewery in Woodstock, Cape Town. Since 2021, the company has established a loyal customer base with their regular coffee service, their fresh baking, and their kind service. At the present time there isn't a website and unfortunately, it's hard to find reliable information about hours, menu and location on Instagram or via word-of-mouth.

The aim of this proposal is to develop a modern, responsive, multiple-page website to act as the epitome of the business. It will include all menus, prices, information on future community events, pictures of the site and food, and enquiry forms and contact details for customers. The site will be built using a mobile-first design for the largest number of users who are going to be accessing the site via a mobile device, and the site will be accessible to anyone who accesses it via WCAG 2.1 Level AA standards.

The cost in coming up with this was estimated at R12,000 and an extra R8,050 in the first year's hosting fees, domain name, SSL setup and maintenance. The project will take 6 weeks to complete and will be live by 15 May 2026.

2. Business Overview

Address: 500 E. Main, Haviland, Kansas 66054-9600

Founded: 2021

Location: 6 Beach Road, Old Castle Brewery, Woodstock, Cape Town 7915

Phone: +27 76 662 9848

Hours: Monday – Friday: 7:00am – 4:30pm / Saturday & Sunday: Closed

In the Old Castle Brewery building in the historic town of Woodstock in Cape Town is Table of Friends - a small café. Specialty coffee and sandwiches and baked goods, weekly open mic nights, monthly book clubs, community breakfast mornings are among

the offerings of the community events we host. The business has been on a growth path with the return of their customers who are regulars within the creative and office neighborhood of Woodstock.

Vission: Good people, good food, and good coffee. That's essentially it.

Mission: To become a place that every resident and visitor remembers – not for its trendiness or marketing appeal but for where they have gone to see the café.

3. Project Goals & Objectives

| Goal | Metric |

Online visitors: 1500+ monthly visits in first 3 months |

G2: Find new customers more via searchable, quotable content online | Basic tracking of the number of people visiting the menu page |

G3: Facilitate promotion of events and involvement of communities | Number of newsletters subscribers over 6 months: 200+ |

G4: Make efficient use of catering and private event enquiries through an enquiry form (10+) enquiries/month)

G5: Set up and incorporate website with current social media communications | Make prominent reference to Instagram/Facebook |

4. Target Audience

Audience Segment | Needs & Expectations |

Woodstock & Cape Town CBD Regulars & locals | Good opening hours and menu, quick specials |

If you have to work remotely, go to a friendly café that has WiFi, or work at a leisurely pace and enjoy a drink from there. |

The students & creatives section will include information on the calendar of community events there, what the events will cost, and customer information on the atmosphere.

What you can expect and reliable information about addressing and opening hours for tourists & visitors.

Event/catering planners > get a private event enquiry form and pricing information.

5. Sitemap & Page Structure

Table of Friends Coffeeshop

└─ index.html	— Homepage (hero, quick-info bar, about excerpt, menu%, specials%, gallery%, contact%)
└─ about.html	— About (our story, values, community events page)
└─ menu.html	— Full Menu (Specialty Coffee, Breakfast, Lunch, Baked Goods, Drinks)
└─ specials.html	— Daily & Weekly Specials + Newsletter Signup
└─ contact.html	— Visit Us (address, hours, phone, Google Maps, contact form)
└─ enquiry.html	— Catering & Private Events Enquiry Form

Page Descriptions:

| Page | Purpose |

Landing page: hero, quick-info, about excerpt with gallery, newsletter signup |

Extended about — story, values, community events section (Open Mic, Book Club, Breakfasts) | about.html |

Some categories and prices |

Daily/weekly specials with savings highlights and email signup for newsletter |

Titles: Location, hours, map, phone, email and contact form. Titles: Location, opening hours, map, phone, email and contact form.

Enquiry.html - enquiry form for private events and dedicated caterings which include date and guest fields |

6. Wireframes

Raw, or low fidelity, wireframing was used in the planning process, prior to development, to define responsive behaviour, content hierarchy and layout.

Wireframe scope covered:

The categories will be shown on the Home Page, Quick-Info Bar, About Page, Menu Bar, Daily Specials, Contact Page, and Footer. The categories will appear on Home Page, Quick-Info Bar, About Page, Menu Bar, Daily Specials, Contact Page, and Footer.

Navigation: desktop (inline links) and mobile (hamburger menu).

- Media Query at 1024px, 768px and break for 320px

Wireframes have been exported from the project's `wireframe.html` and included into this document when necessary.

7. Technical Requirements

| Requirement | Detail |

|-----|-----|

Soliding HTML, CSS, and JavaScript (ES6) knowledge is beneficial. |

Yes — responsive design is mobile first with tests on a variety of mobile and tablet sizes (320px, 768px, 1024px+) |

Popular Browser Support | Chrome, Firefox, Safari, Edge (latest 2 versions) |

Accessibility – WCAG 2.1 Level AA – improving semantic HTML, ARIA labels, keyboard navigation, skip links |

Performance | Compress JPEG/WebP images, Lazy loaded images, Inlined CSS/JS |

Secure Socket Layer or Hypertext Transfer Protocol Secure — using hosting provider for SSL.

Form Handling | Mailto-based forms (Part 1); can Connect to Formspree in production |

8. Design Approach

Color Palette

| Colour | Hex | Usage |

|-----|-----|-----|

Large black letter; Navigation bar, footer, headings;

Like the rest of the GUI, this icon-related use of terracotta/Gold is fine. This is a use of terracotta/Gold for CTA buttons, highlighting text and tags, etc., which is used throughout the GUI, works well.

Section backgrounds | Cream | F5F1EA |

Backed by white color | FAF8F8 | Content backgrounds |

| Text (Black) | `2C2C2C` | Body text |

Light Gray (borders / dividers)

Typography

| Element | Font | Size |

|-----|-----|-----|

| Body Text | Segoe UI | 1rem / 16px (≈12pt) |

| H1, H2, H3 | Segoe UI Bold | 2–3rem |

| Line Spacing | 1.5 | — |

Layout Principles

If you need to display different content on different screens, make that the mobile one the default stylesheet, then add features using the `@media` styling rules.

- Plenty of white space – content is not cluttered

Content-first navigation: Menu on left, logo also left-aligned, clear hierarchy of navigation

- Multi-column or single-column on mobile

- No hardcoded colour values anywhere (instead all colours are defined as CSS custom properties):

9. Content Plan

| Section | Content |

|-----|-----|

The images should be a bit larger than the standard answer eater.

Control a bar using a variety of information. Control a bar with various pieces of information in a quick Info bar. |

| About | Our Story, Our Mission, What We Believe (4 values) |

Community Events: Open Mic Night, Book Club, Community Breakfast — descriptions and schedule

Menu – 5 categories, (Specialty Coffee, Breakfast, Lunch, Baked Goods, Drinks) – 20+ items with prices.

Daily Specials (Mon, Wed, Fri, Weekend, First Thursday, Student Days) have reductions denoted in parentheses. Specialty reductions are listed in parentheses for each of the Daily Specials (Mon, Wed, Fri, Weekend, First Thursday, Student Days).

Commitment & Vision | Community First, Quality, Authentic, Welcoming |

Interior and atmosphere of 4 cafes; objects related to coffee. |

Sign me up for the newsletter! | Subscription form | E-mail + click to subscribe | Privacy statement |

You can add a Contact page and use the address, phone, email, opening-hours and Google Maps embed widgets. Add a Contact page and you can utilize the address, phone, email, and opening-hours widgets as well as Google Maps embed.

Website | Submit a form of enquiry/catering, including name, email, event type, date, guests, message.

Footer, About, Quick Links, Visit Us, Follow Us (Facebook, Instagram) |

10. Timeline & Milestones

| Week | Dates | Deliverables |

|-----|-----|-----|

1 | 13 – 19 April (complete) | Planning of content, sourcing images, creating wireframes and folder structure.

2 | 20–26 April (completed) | Create a navigation and a semantic structure on all 6 HTML pages. |

3 | 27 April – 3 May (completed) | CSS styling, responsive design, hamburger menu, sourcing pictures etc.

Accessibility: Add CSS variables, focus styles, skip-to-content, ARIA, form validation and accessibility testing (Completed in this session) |

5 | 11-17 May (finished) | Finished bugfixes, README and commit history, validation, screen-reader testing |

Stage 1: Launch | 15 May 2026 (completed) | Site deployed and ready for production |

11. Budget & Costs

Item	Cost (ZAR)
------	------------

-----	-----
-------	-------

Web design (Wireframe, Mockup, Design system)	R 3,000
---	---------

Development (HTML, CSS, JavaScript, 6 pages)	R 6,000
--	---------

Testing & QA (accessibility, responsiveness, validation)	R 2,000
--	---------

Prepare reports and documents for projects Project Management & Documentation	R 1,000
---	---------

Subtotal — Development	R 12,000
------------------------	----------

Transfer to new registrar (first year)	R 350 +
--	-----------

Hosting (first year)	R 2,000
----------------------	---------

SSL Certificate (first year)	R 1,200
------------------------------	---------

Maintenance & Small Updates: R 1,500 per year	
---	--

Total — Year 1	R 17,050
----------------	----------

Note: The hosting costs/domains/SSL fees are the standard market rate for small-business South African hosting (development costs fixed).
